

HYDRIOSUL® BN.50

Description	Sodium 2-butoxyethyl sulfate
Chemical name	Butylmonoglycol sulphate, Na-salt
CAS No.	67656-24-0
EINECS No.	266-840-7
INCI name	Sodium Butylglycol Sulfate
Appearance	liquid, colourless to light yellow, clear
Odour	characteristic

Typical Properties

<i>Property</i>	<i>Method</i>	<i>Limits</i>
Concentration [%]	calc.	max. 50
Density at 20 °C [g/cm ³]	DGF H-II 1a	~ 1.20
pH value	DGF H-III 1	~ 8.5

Analytical Data

<i>Property</i>	<i>Method</i>	<i>Limits</i>
Water content [%]	DGF H-III 3a	47.0 - 49.0
Na ₂ SO ₄ [%]	DGF H-III 8a	max. 2.0

Safety and toxicological data as well as transport classes are listed in the material safety data sheet.

The above data represent our actual knowledge and experience in production and laboratory. They do not guarantee neither suitability of our product for a specific application nor do they free the purchaser from performing a receiving inspection. 'Typical Properties' are approximate values and not part of the specification.
